**Terraform Configuration File=titu.tf**

Terraform me codding Blocks ke format me hoti hai

Block Type{

arguments/attributes

}

Kon kon se Block Hote Hai

Terraform Block	**Required provider Block**	**Provider Block**
resource block	data block	locals block
variable block	output block	provisioner block
module block	backend block	**depends_on block**
connection block	lifecycle block	required_version block
dynamic block	required_providers block	import block

arguments/attributes

Required   **Optional**

Blcok se Block judke hi Infrastructure Banta hai

Inhi Block pr loop marenge----Count & Foreach

Syntax Of Block

Block-Type {}

```
features {}
```

Block Type Label1{
}

```
provider "azurerm" {
    }
```

Block Type Label2{
}

```
resource "azurerm_resource_group" "example" {
        name     = "example"
      location = "West Europe"
            }
```
